Maximilian Beyer

Software Engineer

Brisbane, QLD
hello@maximilian.codes
maximilian.codes

I just love to build cool shit.

I am a big believer in the web and in the openness and inclusiveness it represents. I love to learn about cutting edge technology and programming paradigms. I take a lot of pride in the work that I do. Including the quality of code as well as crafting usable and frictionless UI/UX. I love tinkering and experimenting on side projects, which can either be sparked from curiosity for a new technology/framework or a personal interest in the product.

Skills

React, TypeScript, JavaScript, NextJS, NodeJS, PWA, Electron, TailwindCSS, Radix, Firebase, Supabase, OpenAPI, Redux Toolkit
